

**HOVERING MOVABLE AND IMMOVABLE OBJECTS**

<b>Project title</b>	Hovering movable and immovable objects	
<b>Sector</b>	Innovation sector	
<b>Location</b>	Doboj and Zenica City (Zenica-Doboj Canton)	
<b>Project background</b>	In previous sports and similar events weather conditions often hindered or prevented organisation of the event. Guided by these cases, "Moja Diva" company has an innovative idea for this project, which would greatly enable and facilitate the execution of all types of outdoor events. The project relates to the production of hovering movable and immovable objects, and this product has not been in production yet.	
<b>Project status</b>	The project is in phase of development	
<b>Innovation description</b>	The Company goal is production of hovering movable and immovable objects that could be used for temporary and permanent coverage of various sports courts (tennis courts, football, etc.) and other open type facilities. These facilities for inflating (facilities inflation) can be filled with regular air for needing additional aids such as hoists or can be charged gas that is lighter than air. There are three directions for innovation development: to complete the work that has already started, to start working in rented premises or to do in the purchased space.	
<b>Intellectual property, Patent</b>	The invention is recognized. National intellectual property application of Bosnia and Herzegovina: BAP153060A	
<b>Estimated total investment cost</b>	app. 25 000 - 50 000 EUR for the initial phase For third phase, the overall design of the project - 500 000 EUR	
<b>Inputs required from foreign partner</b>	<b>Value</b>	<b>Description</b>
	By agreement	The company need funds to progress the project documentation, and purchase of equipment , machinery and tools for prototyping (to cover one field, for example size of tennis court)
<b>Form of cooperation with foreign partner</b>	Joint venture and others form of cooperation by agreement
