

## SMART RECYCLING MACHINES LAKTASI

<b>Project title</b>	Smart recycling machines
<b>Sector</b>	Manufacture
<b>Location</b>	City Laktasi, Bosnia and Herzegovina
<b>Location description</b>	Production is located in a production-administrative facility in the city of Laktasi, which is located 20 min from the city of Banja Luka, connected by a section of the highway and a local road, with a corresponding voltage network, transformer station and warehouse capacities
<b>Company description</b>	The Company BLP doo is the signatory and holder of the franchise and technology know-how for the production of smart recycling machines with the company BLP Global Consulting doo is the holder of the project to establish the system in BIH
<b>Project status</b>	In progress
<b>Project description</b>	BLP d.o.o. and BLP Global Consulting d.o.o. are the first companies at the level of Bosnia and Herzegovina that has an exclusive agreement with the Belgian company on the organized placement of the first smart recyclables machines for the disposal of PET bottles and cans, recycling machines are an innovative solution specially designed for the market of Bosnia and Herzegovina that will enable the disposal, shredding and separation of waste material, received PET recyclate, and aluminum in a separate part. for the first time in this region, a systemically sustainable approach to waste collection is initiated.

	<p>The users themselves will have both an environmental benefit and an economic and social benefit, namely, through the process of renting recycling machines to markets, BLP will enable citizens to first of all systematically dispose of waste and then to obtain an economically significant voucher from the collected bottles or cans, which they can then use in places where recycling machines have been installed.</p> <p>Markets, on the other hand, achieve an increase in their revenue, they also have statistics on the entry and exit of some of their products</p> <p>This is the first time in an organized and sustainable approach to the disposal of packaging waste.</p> <p>At the request of the partner, together with the signed NDA , we deliver more detailed technical characteristics.</p>	
<b>Estimated total investment cost</b>	1 000 000 EUR	
<b>Inputs provided by local partner</b>	<b>Value</b>	<b>Description</b>
		In agreement with the partner
<b>Inputs required from foreign partner</b>	<b>Value</b>	<b>Description</b>
		In agreement with the partner
<b>Form of cooperation with foreign partner</b>	<b>Financial</b>	<b>Technical</b>
	Partnership investment agreement
