Foreword

The economy of Bosnia and Herzegovina offers strong human and resources base, long industrial tradition, as well as favourable business environment, which enable sustainable and profitable investment. B&H's economy is offering potential investors significant opportunities of penetration into a wider regional market and of running their business on the world scale, since B&H is the signatory of the Central European Free Trade Agreement (CEFTA), which provides free access to this consumer market with 50 million people. Bosnia and Herzegovina also has free trade agreements with the European Free Trade Association (EFTA) countries of Iceland, Liechtenstein, Norway

and Switzerland and with the Republic of Turkey, as well as preferential export regimes with the European Union, USA, New Zealand, Switzerland, Norway, Japan, Russia, Kazakhstan, Belarus, Canada, Australia and Iran. Therefore, starting a business in Bosnia and Herzegovina means the opportunity of exporting to a market of over 500 million people with significant custom benefits!

B&H has become a great location to invest in, with numerous investment opportunities in various sectors. Law on the Policy of Foreign Direct Investments of Bosnia and Herzegovina ensures the national treatment of foreign investors and foreign investors enjoy the same property rights in respect to real estate as B&H legal entities. Also, Bosnia and Herzegovina has one of the lowest rates of VAT (17%) in the region and Europe, as well as the very acceptable corporate tax rates that are also among the lowest in the region and Europe (10%). Bosnia and Herzegovina has made considerable progress in 2015. and Council of Ministers have encouraged private initiative, the necessary reforms are well under way, the deregulation procedure is also happening, and as a result we are seeing the development of a competitive, functional market. The level of foreign investment is far below the needs and opportunities of the country, but Bosnia and Herzegovina has some competitive advantages which should encourage investors to come here.

We hope that you will decide to start and successfully manage to implement your business in Bosnia and Herzegovina and we are here to assist you in achieving this.

Deputy Chairman of the Council of Ministers of B&H
Minister of Foreign Trade and Economic Relations B&H
Mr. Mirko Šarović

Dear investors,

Foreign Investment Promotion Agency of Bosnia and Herzegovina (FIPA) is a state agency established by the Council of Ministers of B&H and it is the leading governmental organization responsible for promotion and attraction of foreign direct investment in Bosna and Herze-govina.

Our mission is to attract and maximize the flow of foreign direct investments and encourage existing investors to further expand and develop their businesses in Bosna and Herzegovina.

FIPA supports investors every step of the way: from choosing a location and during the process of business registration to brokering contacts and providing business promotion and aftercare services.

If you contact us, we will provide you with the best consultation and with the information on investment-related indicators, business environment, legal framework, attractive sectors, available investment projects and locations.

Among some of our other key activities, we provide aftercare services to existing investors. Some of very specific goal of aftercare is to identify any administrative, regulatory or operational issues which are affecting specific investors. The task is not just to collect information on these issues but to also offer assistance in solving any of these issues through the collaborative network of all government levels in B&H.

I believe this brochure will help you to get better acquainted with the business environment and economic potentials of B&H.

I would like to invite you to contact our expert staff committed to assisting you and your business interests at the most efficient way.

Thank you for choosing Bosnia and Herzegovina as your next investment destination!

Director of FIPA
Mr. Gordan Milinić

BOSNIA AND HERZEGOVINA

KEY FACTS

Official name:	Bosnia and Herzegovina (locally Bosna i Hercegovina, most commonly abbreviated as B&H)
Capital city:	Sarajevo (population 400,000)
Other major cities:	Banja Luka, Bihać, Mostar, Tuzla, Zenica
Geographic location:	South Eastern Europe, borders with Croatia (932km), Serbia (312km) and Montenegro (215km).
Area:	51,209 km ²
Population:	3.50 million
Religions:	Islam, Orthodox Christian, Roman Catholic, others
Ethnic groups:	Bosniaks, Serbs, Croats and others
Languages:	Bosnian, Serbian, Croatian (all official)
Administrative organisation:	Two entities (Federation of B&H and Republic of Srpska) and Brčko district of B&H
Government structure:	B&H is a parliamentary democracy with a bicameral parliament (House of Representatives and House of Peoples), three-member rotating presidency, Council of Ministers, and Constitutional Court
GDP:	16.0 billion EUR (2017)
GDP per capita:	4,572 EUR (2017)
Currency:	Konvertibilna Marka (BAM-official; KM-common use)
Exchange rate:	1 EUR = BAM 1.95 (fixed exchange rate)
Landforms:	A very hilly country with the Dinaric Alps dominating the landscape. The highest point, Mt. Maglić, rises to 2,387m. Thick forests cover almost 50% of the land. In the north, along the Sava River valley, a hilly, fertile plain stretches east to west. The country has 20 km of coastline in the southwest of the country, providing access to the Adriatic Sea.
Climate:	Winters can be very cold with a lot of snow, especially in the hills and mountains. Summers are generally warm and comfortable, occasionally hot. Cooler temperatures in higher elevations.
Latitude/longitude:	44° N, 18° E
Time zone:	CET (GMT + 1 hour)
Internet domain:	.ba
Int. telephone code:	+387

Source: Central bank of B&H and Agency for Statistics of B&H, *preliminary data for January-June 2018 and real GDP growth rate for Q2 2018;

REAL GDP GROWTH RATE IN %

Source: Agency for Statistics of B&H

In the ten years period before 2008 Gross Domestic Product (GDP) had been rising for years with average real growth rate of 5% and had almost been doubled. Negative effects of the global financial and economic crisis on B&H economy peaked in 2009.

World economic recovery in 2010 and 2011 leads to the growth of B&H economy with the positive GDP growth rate. In 2012 GDP has been slightly decreased while in 2013 GDP amounted to 13.7 billion EUR and GDP per capita was 3,878 EUR. Natural disaster and floods in B&H in May 2014 has affected GDP growth rate that has decreased twice compared to the previous year. The real GDP growth in 2015 increased to 3.1% and keeps the same growth rate both in 2016 and in 2017. Nominal GDP in 2017 was 16 billion EUR and GDP per capita amounted to 4,572 EUR.

Preliminary data and international institutions foresee GDP growth for 2018 and coming years over 3.0%.

FOREIGN CURRENCY RESERVES, MILLION EUR

Source: Central Bank of B&H

Before global financial and economic crisis, the foreign currency reserves had a trend of increase with an annual growth rate higher than 20%.

In 2008 and 2009 the foreign currency reserves have decreased as a result of the undertaken interventions to ease the negative repercussions of the financial crisis. In last few years foreign currency reserves has been growing continuously at a nominal rate of 10%. Progress was achieved in previous year when they reached the amount of 5.4 billion EUR, at the end of 2017.

In September 2018, foreign exchange reserves amounted to EUR 5.9 billion.

ANNUAL INFLATION RATE IN %

Source: Agency for Statistics of B&H, EDE (Emerging and Developing Europe)
International Monetary Fund (October 2018)

For years B&H had extremely low inflation rate. As the prices in B&H depend on the trends of prices at the global market, enormous growth of the oil prices in the period of global crisis influenced increase in prices of all products and services in 2008.

The stabilization of the prices of oil and food had an impact on the reduction of prices in B&H, evident by considerably price slowdown and noted deflation in 2009.

As it was expected inflation has stabilized and since 2013 the deflationary trends continued.

After four consecutive years of deflation, a positive growth rate was recorded in 2017 mainly due to the increase in the prices of energy products in the world market.

VOLUME INDEX OF INDUSTRIAL PRODUCTION IN B&H

Source: Agency for Statistics of B&H

The recovery of industrial production was recorded in 2013 when the rate of change in cumulative production, relative to the previous year, was 6.7%. Because of natural disaster and floods in May 2014, year-on-year growth rates in 2014 was only 0.1%.

In the years after the flood, there was the recovery with increasing industrial production rates of 2.6% (in 2015), 4.3% (in 2016) and 3.1% in 2017. Growth rate of industrial production for the first nine months 2018 was 2.4%.

Monthly statistic about Industrial production has been provided by Agency for Statistics of B&H: www.bhas.ba.

Source: Agency for Statistics of B&H

The positive trend of higher export growth within the overall growth of foreign trade continued in 2017. The coverage of imports with exports grows continuously. The coverage ratio in 2017 (61%) has been significantly increased compared with 2007/2008 (42%).

Reduction of trade deficit is continued in first nine months of 2018 and coverage of import by export is 61.7%.

FOREIGN DIRECT INVESTMENT IN B&H

FDI FLOWS IN B&H, BY YEARS, MILL EUR

Source: Central Bank of B&H (CBBH), 2007-2017 Flows of FDI, 2018 First preliminary data within Balance of Payments CBBH

In 2007 we attracted 1.3 billion EUR which is absolutely the highest amount recorded mainly thanks to the privatization of large state-owned enterprises. Foreign direct investments (FDI inflow) in 2008 with 684 million EUR can be considered as satisfied, especially if we take into account its positive structure (investment in production sector and high contribution of Greenfield investments). The global economic crisis hit the inflow of FDI in Bosnia and Herzegovina in 2009.

Unfortunately, mainly caused by slow economic recovery globally, which also reflected on investment worldwide, FDI in B&H in the period 2010-2013 were modest.

According to the official data of Central bank of B&H, in the last few years, the highest amount of foreign direct investment was recorded in 2014 with 415 million EUR, which is 99.2% higher than in 2013. Based on CBBH revised data, FDI in 2015 was 326 million EUR, with decrease of 21.5% compared to 2014. Unfortunately a negative trend of FDI inflow continued and decreased 11.5% in 2016 and amounted to 288 million EUR.

Negative trend has stopped in 2017, FDI amounted 398 million EUR and increase 37.9% compared with previous year. Based on preliminary data for 2018 we can hope that investment growth will continue in the future. Also, if we take into account both on-going projects and announced interest of potential foreign investors, we can be optimistic regarding future FDI growth.

FOREIGN DIRECT INVESTMENT IN B&H BY SECTORS

According to the Central Bank of Bosnia and Herzegovina data, the FDI Stock in December 2017 was 6,876 million EUR or 6.9 billion EUR

TOTAL AMOUNT 6.9 BILLION EUR
(MAY 1994 - DECEMBER 2017)

Source: Central Bank of B&H * the graph structure is created according to data of FDI stocks classified by industry (Central Bank of B&H)

Due to the good reputation and long industrial tradition of B&H, the manufacturing sector received the most amount of FDI (32%) and was followed by banking (26%) and telecommunication (13%).

Additional important investments are expected in the energy sector through construction of new and revitalization of the existing facilities and plants. It is expected that the privatization process will be restarted after the period of stagnation.

The value of non-privatized state-owned capital, intended for sale, is estimated to over 5 billion EUR (for more information sees section: Why Invest in B&H subheading No 3).

TOP INVESTOR COUNTRIES IN B&H (1994 - 2017)

TOTAL FDI AMOUNT 6,876 MILL EUR (STOCK)

Source: Central Bank of B&H

The capital of foreign investors from more than 90 countries was invested in Bosnia and Herzegovina. European countries have invested more than 85% of total FDI in Bosnia and Herzegovina in the period from May 1994 to December 2017.

The most investment was realized by the companies from:

- Austria 19.6%,
- Croatia 17.2%,
- Serbia 15.1%,
- Slovenia 7.7%,
- Netherlands 5.2%,
- Russia 5.0%,
- Germany 4.6%,
- Italy 4.5%,
- Switzerland 4.1%
- United Kingdom 3.4%.

WHY INVEST IN BOSNIA AND HERZEGOVINA?

ENVIRONMENT FOR INVESTMENT

B&H's accelerated Economic Reform Process has contributed significantly to a greatly improved business climate. The aim of B&H is to eliminate legal and administrative obstacles for doing business in B&H, as well as create the most attractive business environment in the SEE.

The main goal of B&H is EU membership. Bosnia and Herzegovina is a potential candidate country for EU accession and B&H has signed the Stabilization and Association Agreement with the European Union, which is a step toward EU membership.

Bosnia and Herzegovina has signed the Central European Free Trade Agreement (CEFTA), creating a free trade zone with access to a large consumer market. Also, the process of negotiation to join the World Trade Organisation is underway.

"...Investment climate in Bosnia is in our view very attractive for the investors. Obviously there is first of all natural resources here bought, coal and water available for hydro units, but not only that, you have natural environment here for investment in energy sector in terms of resources but also regulatory environment is improving and satisfactory today, but further improving with support from the local government and we believe there is great potential in that."

Mr. Vuk Hamović,
EFT Group Chairman (United Kingdom)

"The Heidelberg Cement Group has invested more than 60 million EUR in modern technology in B&H and an additional 50 million EUR are earmarked for further ventures, which shows our immense confidence in the Bosna and Herzegovina economy and its potential for sustainable growth.

Our goal is to continue to grow and to expand our market."

Branimir Muidža,
Heidelberg Cement, Manager for B&H

FINANCIAL STABILITY

B&H has the most stable currency in the South East Europe, which is directly linked to the Euro. Central Bank of B&H maintains monetary stability by issuing domestic currency according to the Currency Board arrangement with full coverage in freely convertible foreign exchange funds under fixed exchange rate 1 BAM: 0.51129 EUR.

At the beginning of 2018 there are 23 commercial banks in B&H. Only one bank in B&H is majority state-owned and 22 banks are predominantly privately owned with majority of foreign ownership (app 82% of total banking equity capital). Bosnia and Herzegovina was assigned B credit rating with stable outlook by Standard & Poor's Agency (September 2018) and B3 sovereign credit rating with stable outlook by Moody's Investors Service (February 2018)

PRIVATIZATION

Great investment opportunities in B&H are in the process of privatization. Privatization in Bosnia and Herzegovina is an overall process, through which attractive investment opportunities are opened up to foreign investors in sectors such as the energy sector and telecommunications. Bosnia and Herzegovina has to accelerate the privatization process for companies of strategic importance in order to increase economic growth and enhance the volume of foreign investment.

.....
“...I would like to emphasise that Natron head office has been one of the most successful privatisations in the country. That has happened not only because it had a very strong, determined and resourceful the head group behind it, but also because of very sincere dedicated, technically strong, workforce in the mill and in the country which delivered the right results once guided properly.”
.....

Natron Hayat doo Maglaj (Turkey)

Number of these “strategic enterprises”, which includes large enterprises, telecommunications and power utilities sectors, public utilities, mines, etc, are still not privatized, presenting a choice of opportunities for potential foreign investors.

In the Federation of B&H 43% of the state capital and 75 % of planned number of companies were completely privatized (Stock in December 2017).*

In the Republic of Srpska 723 state companies were privatized. Total proceeds generated through privatization amount to 870 million EUR**. (Source: *Federal Agency for Privatization; **The RS Investment-Development Bank)

Constitutionally, the entities are responsible for structural reform, though, for instance, state level law deals with non-discrimination and transparency of the privatization process throughout the country, and in the FB&H significant implementing authority is at the cantonal level in the privatization of enterprises.

Privatization is managed by the Federation of B&H Privatization Agency and cantonal privatization agencies in the Federation of Bosnia and Herzegovina, and by the Investment-Development Bank (IRBRS) in Republic of Srpska.

Agency for Privatization in Federation of Bosnia and Herzegovina (FPA) is specialized organization in Bosnia and Herzegovina performing professional, advisory, promotional, educational and other business activities relating to the privatization process. For more information visit web page: www.apf.com.ba

The Republic of Srpska Investment-Development Bank (IRBRS) is authorized to sell state capital and restructure enterprises with majority state capital which is subject to privatization. For more information visit web page: www.irbrs.net

INVESTOR PROTECTION AND GUARANTEES

The Law on the Policy of Foreign Direct Investment of B&H, in force since 1998, ensures national treatment of foreign investors, i.e. foreign investors have the same rights and obligations as defined for domestic investors.

In addition, the rights and benefits of foreign investors granted and obligations imposed by the Law cannot be terminated or overruled by subsequently passed laws and regulations. If any subsequently passed laws and regulations are more favourable for the foreign investors, the investors have the right to choose under which regime the respective foreign investment to be governed.

Foreign investors are entitled to open accounts in any commercial bank in domestic or any freely convertible currency on the territory of Bosnia and Herzegovina. Foreign investors are entitled to freely employ foreign nationals, subject to the labour and immigration laws in Bosnia and Herzegovina.

Foreign investors are protected against nationalisation, expropriation, requisition or measures having similar effects; such measures may take place only in the public interest in accordance with the applicable laws and regulations and against the payment of an appropriate compensation, i.e. compensation that is adequate, effective and prompt. Foreign investors may own real estate in B&H and have the same property rights with respect to real estate as any legal entity of B&H.

Foreign investors are entitled to transfer abroad, freely and without delay, in freely convertible currency, any proceeds resulting from their investment in B&H.

There are no restrictions on management of companies with foreign capital. The founder selects the management him/herself. Equipment being imported as a part of share capital is exempt from paying customs duties (this exemption does not refer to passenger vehicles, slot and gambling machines).

For more information visit web page of **Foreign Investment Promotion Agency of B&H (FIPA): www.fipa.gov.ba**

FREE TRADE AGREEMENTS

With the purpose of facilitating trade, creating preconditions for the increase in exchange of goods (and particularly export), the creation of a favorable environment for domestic and foreign investments, Bosnia and Herzegovina concluded certain number of bilateral/multilateral free trade agreements.

Bosnia and Herzegovina has signed the Central European Free Trade Agreement (CEFTA), in effect as of November 2007, with the following countries:

Albania, Serbia, Moldova, Montenegro, Macedonia and UNMIK/Kosovo.

B&H has also signed a Free Trade Agreement with Turkey which provides additional free access to this consumer market with 70 million people.

The Stabilization and Association Agreement (SAA) between the EU and B&H enters into force on June 1, 2015. The SAA establishes a close partnership between the EU and B&H and deepens the political, economic and trade ties between the two parties. It is from now on the main framework for the relations between the EU and B&H.

Free Trade Agreement between Bosnia and Herzegovina and EFTA (Switzerland, Norway, Iceland and Liechtenstein) was signed on 24 June 2013 in Norway, and entered into force on January 2015.

Bosnia and Herzegovina has generalized system of preferences with:

Australia, Belarus, Canada, Japan, Kazakhstan, New Zeland, Norway, Russia, Switzerland and USA.

Furthermore, B&H has preferential export regime with Iran.

As a result, and due to the position that B&H has in the South Eastern and Central Europe, starting a business in Bosnia and Herzegovina means the opportunity of exporting to a market of app. 900 million people without paying any customs duties!

FREE TRADE ZONES

Free trade zones are part of the customs territory of Bosnia and Herzegovina (B&H) which are specially fenced and marked and where business activities are carried out under special conditions in accordance with the Law on Customs Policy of Bosnia and Herzegovina and the Law on Free Zones of B&H. Free zone founders can be one or more domestic or foreign legal and natural persons. While users of free zone can be the founder of free zone or any other legal and natural persons.

Users of free zone do business in the area of free zone under special conditions in accordance with the Law on Customs Policy of B&H and the Law on Free Zones of B&H, on the basis of concluded contracts with the founder of free zone, with prior approval of the customs authorities.

Any industrial, commercial or service activity, (banking, insurance and reinsurance of property and persons, etc.) can be carried out in the free zone.

Advantages of Free Trade Zones:

- Free zone users do not pay VAT
- Investors are free to invest capital in the free zone, transfer their profit and re-transfer capital with no charge
- Customs and tariffs are not paid on imports into the free zone
- The imports of equipment that will be used for manufacturing within the free zone are exempt from paying customs duties and fees

Free Trade Zones in Bosnia and Herzegovina:

1. Free zone Vogošća, Sarajevo
2. Free Zone Holc, Lukavac
3. Free Zone Hercegovina, Mostar
4. Free zone Visoko, Visoko

For additional information about this free zones, please contact FIPA.

TAXATION IN BOSNIA AND HERZEGOVINA

One of the main reasons for investing in B&H is also favorable tax system. Bosnia and Herzegovina has one of the lowest rates of VAT (17%) in the region and Europe, as well as the very acceptable corporate tax rates that are also among the lowest in the region and Europe (10%), as it is shown in the graphs:

The taxation categories at state level are:

Value Added Tax

Unique VAT tax rate is 17%.

Excises Duties

Excises are a special type of sales tax paid on some commodities like: oil products, non-alcoholic drinks, soft drinks, alcohol drinks, coffee and tobacco products:

- oil products (per litre) - BAM 0.45 for motor petrol and unleaded motor petrol and biofuels BAM 0.30,
- non-alcoholic drinks (per litre) - BAM 0.10,
- soft drink (per litre) - beer BAM 0.20 - 0.25 and wine BAM 0.25,
- alcoholic drinks and Ethyl alcohol (per litre) - BAM 15,
- raw coffee (per kilo) - BAM 1.50 (BAM 3.00 roasted and ground coffee; BAM 3.50 for coffee extract),
- tobacco products - proportional rate of 42% on the tax base plus an additional excise depending of other conditions.

The taxation categories at entity level are:

Corporate Income Tax

Corporate tax rate is 10% on the whole territory of Bosnia and Herzegovina.

Withholding Tax

Withholding tax rate is 10% in FB&H (5% on dividends) and 10% in RS.

Personal Income Tax

In FB&H, personal income tax is 10% on net wage (tax base calculated in accordance with gross model).

In RS, personal income tax is 10% on net wage (tax base calculated in accordance with gross model).

In Brčko district, personal income tax is 10% on net wage.

Property Transfer Tax and Real Estate Tax

In Federation of B&H, the property transfer tax rate is 5%. The tax base is the value of the property estimated by the commission appointed by the local tax administration office (according to the seat of the property).

In Republika Srpska, real estate tax rate is to 0.10% of the estimated market value of real estate for real estate which is directly responsible for production activities (facilities for the production and storage facilities for raw materials, intermediate products and final products), and the tax rate is to 0.20% of the estimated market value real estate to other real estate.

In Brčko district, the tax rate on real estate cannot be less than 0.05% of the appraised value of real estate, and shall not exceed 1,0% of the appraised value of real estate.

AGREEMENTS ON AVOIDANCE OF DOUBLE TAXATION

Bosnia and Herzegovina has agreements on avoidance of double taxation with the following countries:

Albania, Algeria, Austria, Azerbaijan, Belgium, Montenegro, Czech Republic, Finland, France, Greece, Germany, Croatia, Holland, Iran, Ireland, Italy, Jordan, Kuwait, Qatar, China, Cyprus, Hungary, Malaysia, Macedonia, Moldova, Norway, Pakistan, Poland, Romania, Slovakia, Slovenia, Serbia, Spain, Sweden, Sri Lanka, Turkey, United Arab Emirates, United Kingdom and Northern Ireland.

Agreements on Avoidance of Double Taxation accelerate the flow of investments into the signatory countries, encourage joint ventures, create more investment opportunities etc.

CONTRIBUTIONS IN BOSNIA AND HERZEGOVINA

In Republic of Srpska, as well as in the Federation of B&H, contributions are calculated on the basis of gross wage. Gross wage includes net wage earned by regular employment, multiplied by the determined coefficient, plus contributions from wage. In Brčko district, pension insurance contributions are regulated by entity laws.

Employee's share:

- Federation of B&H: 17% for pension insurance, 12.5% for health insurance, 1.5% for unemployment insurance (in total: 31% on gross wage).
- Republika Srpska: 18,5% for pension insurance, 12% for health insurance, 0,8% for unemployment insurance, 1,7% for child protection (in total: 33% on gross wage)
- Brčko district: 17% for pension insurance for employers who apply FB&H law and 18% for pension insurance for employers who apply RS law, 12% for health insurance and 1.5% for unemployment insurance (in total 30.5 or 31.5% on gross wage).

Employer's share:

- Federation of B&H: 6% for pension insurance, 4% for health insurance, 0.50% for unemployment insurance (in total: 10.50% on gross wage).
- Republika Srpska: no such contributions are paid.
- Brčko district: 6% on gross wage for pension insurance for employers who apply Federation of B&H law.

AGREEMENTS ON PROMOTION AND PROTECTION OF INVESTMENTS

Bosnia and Herzegovina has Agreements on Promotion and Protection of Investments with the following countries:

Albania, Austria, Belgium and Luxemburg, Belarus, Canada, China, Croatia, Czech Republic, Denmark, Egypt, Finland, France, Germany, Greece, Hungary, Iran, Italy, Jordan, Kuwait, Lithuania, Macedonia, Malaysia, Moldova, Netherlands, OPEC Fund, Pakistan, Portugal, Qatar, Romania, San Marino, Serbia, Slovakia, Slovenia, Spain, Switzerland, Sweden, Turkey, Ukraine, United Kingdom, USA – DFC.

In accordance to the Law on Courts of RS, the tax for the first company establishment is abolished).

INVESTMENT OPPORTUNITIES ATTRACTIVE SECTORS

Bosna and Herzegovina has implemented important economic reforms and liberalization, broadly adjusted legal and regulatory framework to the European standards, preparing favorable business environment for further substantial investments. The main goal of Bosnia and Herzegovina is EU membership and it is a potential candidate country for EU accession. In this respect, it is worth mentioning that the Stabilisation and Association Agreement (SAA) between the EU and Bosnia and Herzegovina enters into force on June 01, 2015. The SAA establishes a close partnership between the EU and B&H and deepens the political, economic and trade ties between the two parties. It is from now on the main framework for the relations between the EU and B&H, further preparing the country for future EU membership.

On February 15, 2016 Bosnia and Herzegovina has formally requested to join the European Union, submitting its application. Huge natural resources and beauties, an abundance of the spare production halls and facilities, industrial zones and attractive locations, highly motivated and competitive workforce are additional motivation and warranty for profitable business ventures.

In spite of the impressive development achievements within past years, there is still a huge gap between real potentials and actual performances within various sectors. Capital shortage has become a main limitation for efficient and faster activation of the powerful resources and other production factors; what open numerous opportunities to foreign investors. To materialize these huge potentials and resources, including strong human base, supporting infrastructure, an abundance of production facilities, B&H economy seeks for increased capital investments, new technologies and access to the new markets, what could be met with strong strategic partners and large international companies, especially in following sectors:

- Tourism
- Agriculture and Food Processing Industry
- Energy
- Wood
- Metal Processing
- Automotive
- ICT sector

Particularly large-scale development programs and huge investment projects have been prepared within energy, transportation and tourism sectors, requiring significant capital investments, which B&H alone cannot afford.

Involvement of strategic investors and applying various business and investment models, such as concession arrangements, various PPP models, financing from specialized institutions like World Bank, EBRD, etc, present a solution for achievement of these ambitious goals.

TOURISM SECTOR IN BOSNIA AND HERZEGOVINA

With its natural beauties, good geographical location, wonderful hospitality of Bosnian people, rich heritage and history and gastronomy offerings, and its status as a still unknown tourism destination for major markets, B&H has all pre-determinants for an extremely successful tourism industry story. According to the World Tourism Organization, B&H is defined as one of only three tourism destinations in the world with overall tourism market growth potential in excess of 10% annually through 2020. This beautiful country has so much to offer for those people who seek different experiences, away from the crowds, whether they are lovers of skiing, rafting, hunting or patient bird-watching. Those who search for more cultural tourism will be able to relive centuries of history by visiting many vestiges and heritage dating back to Roman, even to prehistoric times.

According to the World Tourism Organization (UNWTO), B&H is on the list of the 10 countries that have recorded the most significant increase in tourist arrivals. In the period from January – December 2017 tourists realised 1,307,319 tourists arrivals which represent the increase by 13,7% and 2,677,125 overnight stays which is increase by 12,3% as compared to the same period of 2016. In 2017. The Guardian ranked Sarajevo among top 10 most attractive tourism destination in Europe for winter holiday. Also, in 2017. Business Insider ranked Jahorina among top 17 most unexpected and unusual skiing destinations. In 2015. Lonely planet ranked Bosnia and Herzegovina at 5th position among the top countries in the world worth visit. The National Geographic ranked B&H in the top ten destinations in 2012 - in addition to the world's destination for rafting, hiking, skiing and other sports, B&H was chosen for its the best mountain biking trails. Also, Bosnia has been awarded the leisure destination in the outside world by the National Geographic.

REASONS TO INVEST

Invest in B&H and take advantage of these opportunities:

- B&H becomes an emerging tourism destination
- Unexplored and untouched natural beauties
- Opening and construction of new tourism resorts
- Upgrading of accommodation, entertainment and recreation facilities of existing resorts
- Hotels privatisation
- Nature Parks commercialisation
- Resort operators
- Investment in tourism supporting infrastructure
- Excellent climate conditions
- Long tradition in winter tourism
- Favourable legal environment with guarantees and right protecting your investment
- Highly educated and price competitive labour force

WINTER TOURISM

Ski and winter tourism has a long tradition, primarily referring to the two main mountain resorts in proximity of Sarajevo - Bjelašnica, Igman and Jahorina, which successfully hosted the XIV winter Olympic Games in 1984.

There are also a number of other attractive ski destinations at diverse mountain areas, among which are most prominent Blidinje, Vlašić, Kupres and Kozara.

In order to capitalize huge unused potentials, all these destinations require investments in upgrading and modernization of infrastructure (particularly vertical transportation and ski slopes) and accompanying tourism facilities for development of diversified and all year-around tourism activities including adventurous, eco and sport tourism.

SPA TOURISM

Bosnia and Herzegovina is richly endowed with thermal and mineral springs which are the basis of spa tourism-becoming more popular each day. Due to the healing properties of the thermal and mineral waters, accompanied by mild climate, clean air and natural beauties, Bosnia and Herzegovina spas such as: Fojnica, Banja Vrućica, Gradačac, Mlječanica, Aquaterm, Gata, Guber Ilidža, Kiseljak, Dvorovi Kulaši, Laktaši, Sanska Ilidža, Slatina and Vilina Vlas, have been popular for centuries.

Spa resorts in Bosnia and Herzegovina are mostly located far from urban areas, within unspoiled scenery, where people will find the relaxation and tranquillity they seek. Bosnia and Herzegovina spas offer a whole range of modern and high quality treatments under very moderate prices.

The Health Care laws do not distinguish between the private and public sector. According to the Laws on Health Protection in Bosnia and Herzegovina domestic or foreign persons or companies may be founders of private health institutions, including: clinics, general hospitals, special hospitals, spas, pharmacies, institutions for home care, for palliative care, and dialysis centers.

CULTURAL & RELIGIOUS TOURISM

Bosnia and Herzegovina is a country of long and rich history, which cultural heritage presents a complex mixture of Mediterranean, Byzantine, Ottoman and Central European influences. This diversity distinguishes B&H as a unique cultural, historical and religious attraction.

As a meeting point of different civilizations and cultures over centuries, most of the major religions Judaism, Roman Catholics, Christian Orthodox and Islam exist in harmony in B&H, offering a number of sacred places and a unique experience to domestic and international visitors. B&H is home to the second largest Catholic pilgrimage site in the world in Međugorje, and the largest Islamic pilgrimage site in Europe at Prusac in central Bosnia, as well as to the unique Jewish pilgrimage site located in Stolac. In addition, numerous cultural events with international reputation became part of our tradition, such as Sarajevo Film Festival, MESS - festival of modern theatre, Jazz Fest Sarajevo, etc. All above mentioned favorable prerequisites are only symbolically exploited, opening an array of opportunities to the potential investors for investments in different tourism facilities.

NATIONAL PARKS, PARKS OF NATURE AND ECO TOURISM

A number of national parks and parks of nature have already been established in Bosnia and Herzegovina. Moreover, National park Sutjeska was one of the first established in Europe. There is a program for formal proclamation of new areas in national parks. All existing national parks are characterized by extreme natural beauty and diversity, preserved and rich wilderness, even primeval forests, small and big game (grouse, roe deer, lynx, wolf, bear). The most famous are National park Sutjeska, National park Una, National park Kozara, Park of nature Hutovo Blato, Park of nature Bardača and Park of nature Blidinje. These areas are extremely suitable for eco, geo and ethno tourism development, particularly in cooperation with local population, oriented to the organic food production. However, these huge recourses are modestly capitalized, seeking for potential strategic partners and investors to introduce appropriate business philosophy and models, modernize existing or construct new facilities and improve the marketing strategy.

MARITIME TOURISM

With its 23 km of seaside and 240 sunny days every year, Bosnia and Herzegovina attracts more tourists from all over the world. Town Neum presents seaside door of B&H, and its accommodation capacities are approximately 5000 beds, out of which 2000 in three and four star hotels. With its capacities it cannot satisfy necessities of tourism season. Private accommodations are also available and pleasant pensions, restaurants and cottage houses offer unforgettable stay to the visitors. However this resort needs investments for upgrading and modernization of existing facilities and diversification of tourism offer by construction of new facilities (like yachting marinas). In addition, regions along south - eastern border of B&H,

such as Ivanjica or Trebinje, which are approximately 10 km distant from Croatian Adriatic coast, became particularly interesting for construction of new tourist resorts and facilities due to agreeable climate and availability of free land, under competitive prices.

TOURISM SECTOR PROJECTS IN BOSNIA AND HERZEGOVINA

Eco tourism projects in Bosnia and Herzegovina:

- Ecological park Borik, Buzim
- Boracko Lake, Konjic
- Risovac, Jablanica
- Mlinska Rijeka, Celinac
- Eco-Village of Grabovica, Tomislavgrad
- Nursing home, Gradiska
- Etno village, Borina Mostar
- Ranc C, Laktasi
- Eco zone Koricani, Vlasic
- Ethno village Sokolovgrad, Sokolac
- Eco Village Eco Futura, Sarajevo
- Eco tourism on Neretva River, Mostar
- Ledinci village, Bjelasnica Mountain
- Eco village Krupa na Vrbasu, Banja Luka

- Mountain centre Crvena Stijena, Sokolac
- City swimming pool, Bosanski Petrovac
- Gondola Borje, Kotor Varos
- Kosevo stadium, Sarajevo

Other tourism sector projects proposed by Entities' Governments:

REPUBLIC OF SRPSKA

- Delibasino Selo Tourist Destination Banja Luka
- Touristic Complex Treskavica, Trnovo
- Tourist sport and recreation center PU stud farm Vucijak

FEDERATION OF BOSNIA AND HERZEGOVINA

- Vertical transportation on Bjelašnica Mt., six-seater cable car, illumination of ski trails
- Cantonal Public Company Skenderija, Reconstruction of the halls
- Thermal Resort Gračanica, Canton Tuzla
- Thermal Resort AQUATERM Olovo
- Spa Complex Muška Voda (Male Vigor Water Spring) Kladanj
- Revitalization and enlargement of hotel capacities on the Igman and Bjelašnica Mountains, Hotel Igman
- Enlargement of hotel capacities in Mostar, Neretva Hotel
- Mostar Golf Courses
- Sport-recreation center Igman, Swimming pool at Veliko polje, illumination of ski trails
- Enlargement of hotel capacities in Sarajevo, Barracks Jajce Hotel
- Enlargement of hotel capacities in Sarajevo, Marijin Dvor Hotel
- Enlargement of hotel capacities in Sarajevo, Nacional Hotel

AGRICULTURE AND FOOD PROCESSING INDUSTRY IN BOSNIA AND HERZEGOVINA

About half of the B&H land area is agricultural land where 2.4 million hectares comprises approximately 1.2 million ha of arable land, 100.000 ha of orchards and vineyards, 500.000 ha of improved grazing land and 850.000 ha of mountain pastures. Of considerable importance are also fresh cow milk, maize and potatoes. The climate is predominantly moderate continental, particularly characteristic for Central B&H, while northern part of the country has mostly continental climate. South of the country has Sub-Mediterranean climate, characterized by long, summers and short, mild winters, with more than 200 sunny days and 1400 l/m² of rainfall per year.

REASONS TO INVEST

B&H is richly endowed with natural resources and optimal climate conditions which create superb environment for agricultural production that is a great opportunity for investment with high-income based on the following main advantages:

- BiH's varied topography and climate conditions allow for longer growing and harvesting seasons.
- BiH is among leading world producers of raspberries (10th), plums (15th), and strawberries (35th) and produces significant quantities of high quality vegetables: potatoes, peppers, cabbage and cucumbers.
- The vast number of rivers and lakes offer great opportunities for fish farming.
- Excellent opportunities for the production of Halal meat and foods in general.
- Access to markets with more than 600 million consumers: EFTA and CEFTA member states, Turkey, and Preferential Trade Agreement with EU countries.
- Maximum 1 to 2 day truck transport to most EU markets.

INVESTMENT OPPORTUNITIES

- Enlarging production of fresh raspberries, plums, cherries, grapes, cabbage, cucumbers and young potato.
- Cold storage and deep freeze centers for various fruits and vegetables.
- Further development of the existing Agro Logistic Business Park.
- Processing centers for plums, peppers, cucumbers, and cabbages.
- Development of an Air Cargo Center in a site located in the most prominent agricultural area in BiH which has an existing suitable landing air cargo runway.

FIELD CROPS

Northern parts of the country and river valleys are particularly suitable for field crops production, including cereals, industrial crops, vegetables, feed crops etc. as well as for intensive commercial cattle breeding, and dairy production.

LIVESTOCK & FORAGE PRODUCTION

A large part of the agricultural land in Bosna and Herzegovina , with lots of grassland, and climate conditions are favourable for cattle (sheep and goat) intensive and extensive breeding milk, dairy and meat production, as well as for cultivation of silage etc.

VEGETABLE GROWING

The soil and climate conditions are suitable for all types of vegetable production in all regions of Bosnia and Herzegovina, along the rivers, in flat, hilly and hilly-mountainous regions, even in mountain grasslands, where could be produced a high quality potatoes and cabbage, as well as rye, barley, oat, etc.

MEDICINAL AND AROMATIC HERBS

The biodiversity of medicinal and aromatic plants in the area of B&H is very rich thanks to the favourable climate, geographic and soil conditions.

FRUIT & VINE-GROWING

The most convenient fruit-growing regions are the hilly and hilly-mountainous regions and the river valleys which are abundant in sunny sites with the right type of well drained soil, as well as the Mediterranean region (Southern B&H). Currently, there are an estimated 14 million trees producing plums, pears, apples, berry and other fruit for export and fruit-juice production. The Bosna and Herzegovina grape and wine production takes place in the Mostar, Čitluk, Stolac, Ljubuški, Trebinje and Čapljina municipalities area.

FISH FARMING

Abundance of the clear, unpolluted rivers and streams that cross the country presents huge potential for both family owned and industrial size fish farming production, especially trout and carp rising.

ORGANIC FOOD PRODUCTION

The development of the B&H organic sector started in 1996 when the first B&H organization "ORGANSKA KONTROLA" became a member of IFOAM (International Organization of Organic Agriculture Movements). The scientific study made by Sarajevo Economic Institute and Washington Urban Institute, identified enormous potentials of the organic food sector for rural development generation in B&H.

FOOD PROCESSING INDUSTRY

Currently Bosnia and Herzegovina food processing industry encompasses the companies engaged in manufacturing or processing of foods and beverages for human consumption, including meat, milk, fruit, vegetable, sugar, oil and tobacco, as well as prepared feeds for animals and fowls.

AGRICULTURE AND FOOD PROCESSING PROJECTS IN BOSNIA AND HERZEGOVINA

Beekeeping projects in Bosnia and Herzegovina:

- Beeswax comb foundation, Konjic
- Organic honey, Sanski Most
- Regional beekeeping centre, Trebinje
- Apiculture in Herzegovina Neretva Canton
- Bee venom, Vogosca
- Products based on honey and herbs, Samac

Dairy projects in Bosnia and Herzegovina:

- Rama Municipality
- Goat farm EKO KOZA, Mostar
- Goats farm Capra Animi, Prnjavor
- Goat farm Zepa, Rogatica
- Raw milk and milk products Mokro, Pale

Beverage projects in Bosnia and Herzegovina:

- Drinking water, Jablanica Municipality
- Kula water factory, Mokro Pale
- Berry juice, Ribnik
- Bottling and distribution of premium spring water, Muska voda Kladanj
- Homemade brandy, Kozarska Dubica
- Mineral water bottling plant Kotor Varos

Livestock projects in Bosnia and Herzegovina:

- Sheep breeding, Municipality of Konjic
- Agricultural and meat production, Bugar Bihac
- Slaughterhouse and meat processing, Orasje
- Development goat farming, Posusje
- Expanding the capacity of cattle per cow-calf system, Tomislavgrad and Kupres
- Meat industry Semko, Visoko
- Goat farming and processing of goat milk, Celinac
- Goat farm Ljubacevo, Banja Luka
- Farm for outdoor kept cattle Gazije, Rogatica

Herbs & Grains projects in B&H:

- Medical, aromatic and spice herbs, Ljekobilje Trebinje
- Medicinal herbs, mushrooms and wild berries, Konjic
- Plantation of Helychrisum italicum, Mostar
- Indigenous grains and oilseeds, Bosanski Petrovac
- Cultivation of medicinal herbs, Mostar
- Production of flowers and seedlings in greenhouses, Zenica

Fruit & Vegetable projects in Bosnia and Herzegovina:

- Fruit and vegetables cold store, dressing and conservation, Gorazde
- Fruit and vegetable processing mill, Bajric Bugojno
- Fruit and vegetable production and cold store, Gracanica
- Fruit species nursery and raspberry plantings, Konjic
- Fruit and vegetable processing plant, Ljubinje
- Greenhouse production, Sanski Most
- Table grapes Mostar
- Fruit processing, Visegrad

Drying of fruit, vegetables, mushrooms & herbs, Visoko

- Vegetable seedlings, Vogosca
- Agrocentar, Kozarska Dubica
- Fruit and vegetable cold store, Gracanica
- Construction of mini cold storage, Milici
- Preserving of fruits by cooling and drying, Celinac
- Fruit and Vegetable Cold Storage- Teslic
- Dried mushrooms and fruits, Srebrenica

Poultry projects in Bosnia and Herzegovina:

- Organic chicken fertilizer in pellet form, Orasje
- Poultry meat, Brojler Sarajevo
- Poultry slaughterhouse, Kartonka Siroki Brijeg
- Broiler farm, Prijedor
- Poultry farm, Travnik

Food centre projects in Bosnia and Herzegovina:

- Fruit and vegetable cold store, Gradacac
- Regional food centre, Sarajevo
- Production of rodenticides and insecticides, Bijeljina
- Agrocentar, Gornji Vakuf Uskoplje

Fish Farm projects in Bosnia and Herzegovina:

- Fish Farm for Trout breeding, Blagaj
- Fish Farm Laks, Mostar
- Fish farm Slap, Zepa-Rogatica

Other agriculture and food processing projects proposed by Entities' Governments:

REPUBLIC OF SRPSKA

- Building a Fruit and Vegetable Cold Storage, Teslic
- Factory for Water Bottling and Flavoring and Refreshing Drinks Kozincic Wellspring, Krupa na Uni
- Fruit and vegetable processing and packaging Laktasi
- Improvement of production and processing of certified seeds of major types of field and vegetable crops in the RS
- Project Soca cultivation of shiitake and champignons in an underground facility, Novo Gorazde
- Revitalization of the production of seed potato and small grains seed and forage crops, Sokolac
- The production of organic food based on fruit and vegetables Gradina Novo Gorazde

FEDERATION OF BOSNIA AND HERZEGOVINA

- Reproduction center for restoration of livestock
- Manufacture of greenhouse structures
- Revitalization of the company Agrokomerc
- Cattle and Goat Farm, the Una-Sana Canton

ENERGY SECTOR IN BOSNIA AND HERZEGOVINA

Bosnia and Herzegovina Energy Sector is one of the most powerful, with long tradition and huge potentials and opportunities for further development and investment. This sector is subject to the deep reforms, restructuring and privatization processes, with intentions to become integral part of European energy market and community.

Power generation in Bosnia and Herzegovina is exclusively related to domestic energy resources - coal and hydropower. Total installed capacity of generation facilities in Bosnia and Herzegovina is 4000 MW, out of which 57% in the hydropower plants and 43% in thermal power plants.

Apart from major hydropower plants and thermal power plants, the existing generation capacities in Bosnia and Herzegovina include also small hydropower and industrial plants, which are mostly connected to the distribution grid.

REASONS TO INVEST

B&H is endeavoured with various indigenous energy recourses, including:

- Considerable reserves of brown coal and lignite of 6 billion tons
- Huge hydro potential of over 4000 MW
- Significant wind energy potentials estimated at 1500 MW
- Raw material resources for the bio-mass energy are extremely favorable, including approximately 1.5 million m³ of forest/wood industry residues
- Geo-thermal and solar as well as bio-mass energy are only symbolically in use
- Preliminary research surveys of oil and gas, had indicated the presence of promising deposits on a number of sites in Bosnia and Herzegovina (reserves are estimated at about 50 million tons of oil)
- Energy Community Membership
- Favorable Feed-in-tariffs for RES power plant
- Low Operating costs and Competitively priced & qualified human capital
- Energy Reserves and Potentials

According to the latest data, B&H is at first place in the region concerning the export of electricity. The exports of electricity in 2016, amounted 5,287 GWh. In the last three years, B&H was ranked as 24th in the world in the export of electricity, while Germany occupied first place.

INVESTMENT PLAN

Strategic development programs of the Entities' Ministries of Energy, Mining and Industry, foreseen a significant investments in new power system facilities based on coal, hydro and renewable energy sources and expansion of existing power generation capacities , in order to meet growing electricity supply deficit within regional and larger European markets.

LARGE THERMAL POWER GENERATION PROJECTS

There are a total of five new coal-fired thermal power generation projects: Kongora - coalmine/power plant; Bugojno - coalmine/power plant; Ugljevik 2 - coalmine/power plant; Gacko 2 coalmine/power plant; Kakanj - G8.

The potential electricity production capacity will be approximately 2700 MW, including both, rehabilitation and expansion of the existing facilities and construction of entirely new coal mine / power generation plant complexes.

LARGE AND SMALL HYDROPOWER PROJECTS

Development programs identified fifteen potential new large and small hydropower projects, and four rehabilitation and expansion projects, with potential electricity production capacity of approximately over 2000 MW in total.

In the river basins of Bosnia and Herzegovina there were identified over 400 potential micro locations for construction of the mini hydro power plants (capacity of 5 MW or less), enabling cumulative increase of the electricity production capacity of approximately 1000 MW.

WIND ENERGY POTENTIALS

Systematic wind measurements on larger number of locations on the area of Herzegovina in the period of last 15 years shown wind speed in the range of 7 to 9 m/s.

The application of extrapolation models and the use of long-term scaled data sets on these locations result in expected average annual wind speed in the range of 6 to 8 m/s 50 m a.g.l. Currently there are many macro and micro locations for wind power plant construction that are evaluated as advantageous for wind power plant construction.

SOLAR ENERGY POTENTIALS

B&H resources of solar radiation energy is above the European average with very favorable seasonal schedule, and possibility for its effective and long-term use. The theoretical potential of solar energy amounts about 74.65PWh. It can be said that B&H is one of the most favourable locations in Europe, where solar radiation is concerned.

The solar irradiation values vary accordingly with about 1,240kWh/m² in the north to 1,600kWh/m² in the south where the number of sunny days can reach 270 days per year with a solar thermal potential of approximately 1,900 TWh.

ENERGY SECTOR PROJECTS IN BOSNIA AND HERZEGOVINA

Hydro Power Plant projects in Bosnia and Herzegovina:

- Babino Selo, Donji Vakuf
- Bileca, Trebisnjica river
- Drina I, Drina II, Drina III
- Han Skela, Jajce
- Ivik, Jajce
- Kablic, Livno
- Kovanici, Zenica
- Nevesinje, Zalomka river
- Ugar Usce, Jajce
- Ustikolina, Gorazde
- Vrletina kosa, Jajce
- Krusevo and Zelenci Vir
- 6 HPP on Bosna River
- Reversible hydro power-plants "Vrletna Kosa" and "Usce"

Small and mini Hydro Power Plant projects in B&H:

- Ponor river, Mrkonjic Grad
- Marin most, Prozor Rama
- Toplica 3, Kiseljak
- HES "GORNJA NERETVA", Kalinovik and Gacko
- MHPP Ivancica, Busovaca
- Small HPP, Medna Sklop, Mrkonjic Grad
- Small HPP Sokocnica, Mrkonjic Grad
- Small HPP Krusnica 1, Vitez

Thermal Power Plant projects in B&H:

- Bugojno, 300 MW
- Kakanj, Unit 8
- Miljevina, Foca

Wind Farm projects in B&H:

- Borova glava, Livno
- Plocno, Mostar
- Poklecani, Posusje
- Relaks, Posusje
- Velika Vljajna, Mostar
- Wind farm Derala, Bosansko Grahovo
- Wind farm Galica, Vlasici
- Wind farm Vlasici
- Wind parks Slovinj and Dzeva, Glamoc
- Wind farm Orlovaca, Livno
- Wind farm Skadimovac, Glamoc

Biomass & Solar projects in B&H:

- Cogeneration plant on biomass, Sokolac
- Biomass power plant, Visoko
- Photovoltaic power station Spreca 1, Kalesija
- Central Heating system, Teslic
- Photovoltaic plant Vodovod 1&2, Samac
- Heating system in Municipality of Mrkonjic Grad
- Waste-to-Energy plant, Kotor Varos

Other energy sector projects proposed by Entities' Governments:

REPUBLIC OF SRPSKA

- Lower Drina Hydropower Plants
- Hydropower Plants on the Middle Drina
- Hydropower Plants on the Upper Drina
- Hydropower System Upper Horizons
- Hrgud Wind Farms, Berkovici
- Reconstruction and Energy Efficiency Improvement in Public Lighting System of Sokolac Municipality
- Installation of Solar Panels on Public Institution Buildings, Teslic
- Procurement of Generators for Landfill Gas Use for Energy, Banja Luka

FEDERATION OF BOSNIA AND HERZEGOVINA

- HPP Maglaj, River Bosna 11 MW
- HPP Komšići Maglaj, River Bosna 10 MW
- HPP Vinac Jajce, River Vrbas 12 MW
- HPP Bjelimići Konjic, River Neretva 100 MW
- WPP Bitovnja Konjic 60 MW
- WPP Medveđak Bihać 30 MW
- Gas Pipeline Novi Travnik BiH - Zagvozd Hrvatska
- HS TPP Tuzla - Živinice
- HS TPP Tuzla Tuzla Proširenje
- HS TPP Kakanj - Zenica
- HS TPP Kakanj - Sarajevo
- HS TPP Kakanj - Lašva Valley
- HPP Unac, River Una 72 MW
- HPP Kostela, River Una 8 + 6 MW
- 15 MHPP in the River Neretva Basin 24.5 MW
- TPP & Mine Kamengrad Sanski Most 250 MW

WOOD SECTOR IN BOSNIA AND HERZEGOVINA

Bosnia and Herzegovina has a long tradition in forestry and wood processing, going back to the second half of the 19th century. The abundance of both hard and softwood, as well as the competitive and skilled workforce, make this sector attractive for investment, particularly in export-oriented production programs.

Of all the natural resources of Bosnia and Herzegovina, its timber is best known; 63% of the country is covered in forests that can serve both the furniture and the construction industry. These forests have the potential to provide nearly 7 million m³ round-wood per year on a sustainable basis. Beech, oak, ash, pine and fir as well as more specialised woods such as walnut, apple and cherry, are exported as raw material, half fabricates and finished products.

Over 60% of Bosnia and Herzegovina wood sector production is exported, where the finished furniture is becoming more and more important export product. Currently, the largest markets for these producers are Western Europe, USA and Middle East, but the potential to export to other countries is enormous. Nevertheless, the wood processing sector is characterized by a large gap between its current performances and its real potential.

Targeted investments have the potential to bridge the mentioned gap and improve the substantial value-added outcome, starting new companies or modernizing existing ones, with some capital investments or introduction of the new technologies and equipment.

FOREST RESOURCES – RAW MATERIALS

Bosna and Herzegovina forestry provides reliable resource base (volume, species, quality) related to the supply of various high quality raw materials (beech, oak, ash, pine and fir, as well as walnut, apple, cherry etc.), to the wood processing industry, on long term basis. Around 63% of B&H territory is covered by forests, where deciduous trees (hardwood) are predominant (over 60 %, mainly beech and oak). „Bosnian beech” is particularly famous worldwide, due to its high quality. The B&H forests (80.7% state owned) have the sustainable potential to provide nearly 7 million m³ round-wood per year.

Bosnia and Herzegovina has favorable demographics and consistent investment in education provide sustainable supply of flexible, adaptable, innovative, foreign language spoken and productive young workforce. There is well-developed university education system, providing sufficient qualifications for entry to professions with high skilled requirements. In addition there is abundance of labor of all categories, under competitive prices, being app. 20% of West Europe and USA wages.

MARKET POTENTIALS

The most attractive products in the view of market potential for Bosna and Herzegovina would be: pulp and paper mills, edge glued panels, veneer/hardwood plywood, parquet, furniture (preferably solid wood), medium density fiberboard, particleboard, joinery, biomass (briquette, pellets, heat generation).

MOST PROMISING OPTIONS

The most promising options for potential investors in B&H forestry/wood industry lie in processing of sawn wood to edge glued panels (EGP), veneer, parquet and furniture, especially as there are small and medium companies which may be suitable for joint ventures. In addition, there is potential for investment in one MDF and one particleboard mill of global market competitive size.

Wood sector offers an array of opportunities by:

- Introducing better technologies and machinery
- Modernizing product design
- Long tradition of manufacturing and forestry
- High quality raw material-relative ease of access
- High level education/professional forestry and wood processing experts at all levels
- Skilled labour force at reasonable cost
- Attractive and competitive costs
- Geographical location
- Growing international demand for final and semi-final (especially hard-wood) products

Comparative preview of the forest resources in the region:

Country	Forest area (hectares)	Annual volume growth u (m3)	Wood reserve (m3)	Annual allowable cut (m3)
B&H	2.700.000,00	10.500.000,00	583.200.000,00	5.500.000,00
Serbia	2.429.642,00	6.200.000,00	235.000.000,00	1.800.000,00
Croatia	2.700.000,00	9.600.000,00	398.000.000,00	6.500.000,00
Slovenia	1.166.000,00	6.395.000,00	311.000.000,00	2.300.000,00
Austria	3.924.000,00	28.137.000,00	1.097.000.000,00	10.101.000,00
Italy	10.842.000,00	32.211.000,00	1.429.000.000,00	2.150.000,00
Holland	339.000,00	2.917.000,00	54.000.000,00	2.444.000,00
Denmark	538.000,00	95.822.000,00	55.000.000,00	20.041.000,00
Sweden	30.259.000,00	3.450.000,00	2.466.000.000,00	67.766.000,00
EU (28)	160.271.000,00	626.062.000,00	19.371.000.000,00	393.945.000,00

Competitive advantages of the B&H wood processing industry are:

- Domestic raw materials base;
- Increasing number of newly equipped plants;
- Favourable geographical location;
- Long tradition and practice in wood processing and craftsmanship;
- Relatively good training of the workforce;
- Presence on the markets of Europe and USA of many years;
- Traditionally export oriented;
- Price-competitive labour costs;

Opportunities of the B&H wood processing industry are:

- Increase of demand and expanding market;
- Signed agreement for free trade with the surrounding countries;
- Increase of demand for all types of furniture on the global marketplace;
- Large number of foreign direct investment in the wood processing industry;
- Use of the wood-related products for production of energy, food, cosmetics, medical treatment etc.

WOOD SECTOR PROJECTS IN BOSNIA AND HERZEGOVINA

Wood sector projects in Bosnia and Herzegovina:

- Biomass briquettes, Sokolac
- Factory of tables and chairs, Lopare
- Furniture production, Konjuh Zivinice
- Parquet and glued panels, FAD Vogosca
- Passive building and wigwams, Donji Vakuf
- Prefabricated houses, Seta inženjering Zavidovici
- Wood processing plant, East Drvar
- Production of pellets, Gradiska
- Laminated board made of hard wood, Zavidovici
- Wooden toys production, Zavidovici

Other wood sector projects proposed by Entities' Governments:

REPUBLIC OF SRPSKA

- Drvna Industrija Vlasenica a.d. Vlasenica
- Nova Borja a.d. Teslic
- Nova Romanija a.d. Sokolac

TRANSPORT SECTOR IN BOSNIA AND HERZEGOVINA

Transport sector in Bosnia and Herzegovina became one of the most active and vibrant sectors within B&H economy, due to the ambitious physical and institutional development programs – covering roads, railways, aviation, inland waterways and urban transport - adopted by B&H governments, and supported by various international, predominantly financial institutions (World Bank, EBRD, etc.). Main comparative advantage of Bosnia and Herzegovina is a favorable geographical position, which is the main basis for the future development of the whole transport sector. Recognizing efficiency and quality of transportation system and infrastructure as one of the key factors for faster transitional changes, regional and international integrations of B&H, as well as for overall economical development, adopted Strategy, Policy and Sector development scenario by 2020, encompassed considerable investments in transportation infrastructure, respecting the principles of liberalization and privatization. Numerous infrastructure projects are already underway, which aims are to improve the performance of Customs and removing impediments to international road transport, including greatly increasing the efficiency of road border crossing points, implementation of the Road Management and Safety Project, with the objective to improve traffic flows and reduce accident rates on the country's road network through reconstruction and modernization of priority roads, as well as construction of new roads and motorways etc. All these development programs aim to increase the density of high quality transportation facilities within the country, and to upgrade existing infrastructure, which encompasses at present, as follows:

ROADS

The road network of Bosnia and Herzegovina consists of 24,796 km with 3,970 km main / state roads (16.0%); 128,7 km of which classified as Motorways (120 km of motorways and 28.7 km of roads reserved for motor traffic), 4,611 km secondary / regional roads (18.6%) and 14,200 km other / local roads (57.3%). Part of the B&H road network assumed strategic international relevance, within the Western Balkans Region, due to its inclusion in the SEETO (South East Europe Transport Observatory) Comprehensive network.

Main projects identified by road development program are:

- Motorway at Corridor Vc,
- Motorway Gradiška - Banjaluka - Mrkonjić Grad - Šipovo - Kupres,
- Motorway Prijedor - Banja Luka - Doboj - Šamac - Bijeljina (Serbian border),
- Motorway Tuzla - Orašje (Croatian border),
- Highway D. Vakuf - Lašva,
- Highway Bihać - Izačić (Croatian border),
- Highway modernization/reconstruction Sarajevo - Tuzla,
- Highway Sarajevo-Belgrade (two routes) etc.

Management of the road network in Bosnia and Herzegovina is carried out according to different levels of jurisdiction of Federation of B&H, Republic of Srpska and Brčko District. In the State level management is The Ministry of Communications and Transport of B&H (MoCT).

CORRIDOR VC

Corridor Vc, as a part of Pan-European Corridor, connected to TEN Network, was recognized as main regional project, going from Budapest (Hungary), via Osijek (Croatia), Sarajevo (Bosnia and Herzegovina) to the Port Ploce (Croatia).

The transport Corridor Vc through Bosnia and Herzegovina includes:

- Motorway - E-road E-73 Samac- Sarajevo - Mostar - Croatian border, with exit to the Adriatic Sea (Port Ploce),
- The railway Samac - Sarajevo - Mostar - Croatian border, with exit to the Adriatic Sea (Port Ploce),
- Sarajevo and Mostar Airports,
- Waterways and quays on the Sava, Bosnia and Neretva Rivers,

Corridor Vc's central objectives are B&H's inclusion into Europe's main traffic flows, as well as easier access to the European marketplace. Bosnia and Herzegovina (B&H) contains the longest section of Corridor Vc with a total length of approximately 335 km. Corridor Vc goes through major economic, cultural and industrial centres in the B&H. So far 105 kilometers of the motorway on the Corridor Vc are finished . The project has a strong support of the Bosnian Government and it's financed by bank loans: EIB, EBRD, OFID, KFAED.

RAILWAYS

The total length of operational railway tracks in B&H is 1031 km, most of which is electrified (91.48% are single-track and 8.52% are double-track lines). The network is deployed 57% in FB&H, 40.4% in RS, and 2.6% in BD. The railway network consists of two main strategic lines, which are also the main railway lines for cargo:

- The North-South line Bosanski Samac-Doboj-Zenica-Sarajevo-Mostar-Capljina, located on Corridor Vc;
- The West-East line Dobrljin-Bosanski Novi-Banja Luka-Doboj-Tuzla-Zvornik which is the railway line parallel to Corridor X.

Rail transport in Bosnia and Herzegovina is operated by two companies: Željeznice Federacije B&H and Željeznice Republike Srpske. Priorities and at the same time investment opportunities for the railway sector are reconstruction and modernization of infrastructure and purchase of new locomotives and coach cars.

AVIATION

B&H has four main airports, compliant to the ICAO standards, all of which serve in-

ternational air traffic, where Sarajevo serves approximately 90% of the total traffic. The other three airports - Banja Luka, Mostar (about 30 miles from the border with Croatia), and Tuzla (about 5 miles from the Serbian border) have occasional commercial charter traffic, which can fluctuate depending on the season. All airports has development programs related to the modernization and expansion of existing capacities, including upgrading of the navigation equipment and other facilities, such as terminal buildings, runways etc.

INLAND WATERWAY SUBSECTOR

The Sava River, with two main ports Šamac and Brčko, being a tributary of the Danube (part of TEN Corridor VII), is the only navigable waterway, and runs for 333 km along the border with Croatia and the border with Serbia. Both ports have the ambitious development programs related to the modernization and expansion of the existing facilities and capacities.

INVESTMENT OPPORTUNITIES

Attracting investors and reliable strategic partners is one of the most important preconditions for the successful development of the B&H transportation sector, applying various business and investment models, such as:

- Involvement of strategic investors on Build-Operate-Transfer concession basis,
- Financing from specialized institutions (World Bank, European Investment Bank),
- Engagement of B&H investment funds,
- PPP arrangements,
- Privatization, etc.

TRANSPORTATION SECTOR PROJECTS IN BOSNIA AND HERZEGOVINA

Transportation sector projects in Bosnia and Herzegovina:

- Expressway Lasva - Travnik (Nevic Polje)
- Corridor Vc Motorway
- New Raca Port, Bijeljina
- Regional Business - Tourist Airport Golubic, Bihac

Other transportation sector projects proptosed by Entities' Governments:

FEDERATION OF BOSNIA AND HERZEGOVINA

- Motorway Corridor Vc, Svilaj - Odžak (II phase)
- Motorway Corridor Vc, Karuše - Ozimica
- Motorway Corridor Vc, Ozimica - Poprikuše
- Motorway Corridor Vc, Poprikuše - Nemila
- Motorway Corridor Vc, Nemila - Vranduk
- Motorway Corridor Vc, Vranduk - Ponirak (entry Tunnel Zenica)
- Motorway Corridor Vc, Ponirak - Vraca (Tunnel Zenica)
- Motorway Corridor Vc, Vraca (exit Tunnel Zenica) - Pečuj
- Motorway Corridor Vc, Tarčin - Ovčari
- Motorway Corridor Vc, Ovčari - Konjic
- Motorway Corridor Vc, Konjic - Prenj

- Motorway Corridor Vc, Tunnel Prenj
- Motorway Corridor Vc, Prenj - Mostar north
- Motorway Corridor Vc, Mostar north - Mostar south
- Motorway Corridor Vc, Mostar south - Kvanj
- Motorway Corridor Vc, Kvanj - Buna
- Motorway Corridor Vc, Buna - Počitelj
- Motorway Orašje - Tuzla - Žepče (I phase)
- Expressway Nević Polje - Jajce
- Freeway Mostar - Š.Brijeg - Posušje - Tomislavgrad - Livno, modernization and speeding up
- Freeway Bihać (GP Izačić) - Cazin - V. Kladuša -GP Maljevac, modernization and speeding up
- Freeway Sarajevo - Prača - Goražde, modernization and speeding up
- Construction of Bypass - the First Sarajevo Transversal
- Airport Tuzla, Establishment of a regional cargo center with airpark
- Airport Sarajevo, Reconstruction
- Airport Sarajevo, Enlargement of the Terminal B
- Railroad track Vareš - Banovići
- Regional project of railways reconstruction in BiH /Railways II

MINING AND METAL PROCESSING SECTOR IN BOSNIA AND HERZEGOVINA

Mining sector that includes exploration, exploitation, metal processing and processing of the other indigenous mineral resources, has a long tradition in Bosnia and Herzegovina, as well as huge potentials.

Most important motives for foreign investors to invest in mining and metal processing sectors in B&H are:

- Natural recourses /law cost sourcing of input / low cost of production,
- Qualified, trained, motivated and at a price competitive labour force,
- Available infrastructure and inputs,
- Good export opportunities including geographic position and incentives,
- Sector supported universities, research and development institutions, design and engineering companies.

MINING

Bosnia and Herzegovina is abundant in various natural mineral resources, particularly in large deposits of coal, bauxite, iron and limestone. The main energy resource of B&H is coal (brown coal and lignite), with estimated reserves of 6 billion tons. Coal is one of the most important energy resources in Bosnia and Herzegovina. Major deposits of lignite and brown coal are sited all around B&H. Bosnia and Herzegovina has an estimated 653 million tons of iron ore deposits concentrated around Ljubija and Jablanica.

Total bauxite deposits are estimated at 120 million tons, with over 30 million tons of accessible reserves which are scattered throughout B&H and particularly around Vlasenica and Jajce as well as in the regions of Mostar, Čitluk, Posušje, Stolac, Tomislavgrad, Žitomislići, and Bosanska Krupa. Zinc and lead reserves are estimated at 56 million tons and located around Olovo, Vareš and Srebrenica. Reserves of magnetite are estimated at approximately 2 million tons that are predominantly concentrated around Kladanj (with 20% of magnetite content). Reserves estimated at approximately 2.5 million tons of manganese are concentrated in the area of Bužim and Konjic, and around 200.000 tons of chromium in Vareš area. Reserves of silver, arsenic, and barite are also detected in Olovo, Vareš, Kladanj, Srebrenica and other mines.

Bosnia and Herzegovina has significant deposits of non-metal and other industrial minerals, such as salt, limestone, asbestos, pyrophyllite, kaolin, gypsums, clays, (china clay), dolomite, silica sand, stones, gravel (aggregates), sand, and other minerals. In order to benefit from those huge potentials mining sector requires substantial reforms and restructuring as well as modernization of all exploration and exploitation segments. It could be achieved through the introduction of new technologies. It requires significant investments and opening an array of investment opportunities for both strategic partners and reliable investors.

METAL PROCESSING SECTOR

Metal production sector in Bosnia and Herzegovina is one of the most important industrial sectors in the country with the tradition longer than a century. Metal sector is particularly export oriented sector with the total export share of about 35 - 40 % of the total revenues proved by the main indicators of the sectors showed in the next table.

Actual situation and main indicators for the sector show the following:

Indicators u MS	2013	2014	2015	2016	2017
GDP Share (%)	3.31%	2.99%	3.35%	3.59%	-
Export Share	34.0%	34.2%	35.1%	33.4%	34.3%
No. of companies	1,162	1,111	1,082	1,114	1,110

Source: Agency for Statistic and Foreign Trade Chamber of B&H

B&H metal processing has traditionally been one of the strongest bh sectors by offering a strong human and resources base as well as a long tradition enabling sustainable development of various value-added businesses, export oriented in particular. First industrial capacities of the metal sector developed from the craft workshop for maintenance of the coal mine equipment and salt.

REASONS TO INVEST

B&H metal sector has permanent and robust production growth rate of over 10% within the past few years, being strongest exporter in B&H economy. Metal industry is one of the most important industrial sectors of the whole region based upon the following data:

- Long tradition in the metal processing industry
- Developed advantages at the international market
- Abundance of production facilities and industrial zones
- Skilled and affordable labour force
- Available production capacities
- Rich in mineral resources
- Export oriented sector (app. 34% of the total export)
- No restrictions for foreign partnership with domestic companies

FDI IN METAL PROCESSING SECTOR

According to the statistical data total income of metal production of FDI by December of 2016 was 552.3 million BAM, presenting 4,26% of total foreign investments (13 billion BAM). The investments were made in sectors of:

- Fabricated metal products, except machines and equipment - 1,71%
- Motor vehicles, trailers and semitrailers - 1,05%
- Base metals - 0,34%
- Machines and different devices - 0,41%

Investment activities within the total foreign investments in the metal sector
December 2016 - in percentages

Source: CBB&H, FDI Balance by activities NACE Rev 2

Foreign investor's access into a metal sector would have enabled flow of local company's access towards new technologies, knowhow system and administrative skills. That also includes domestic companies into a regional and global business networks as well as additional capital for investments in order to increase productivity and competitiveness of the companies.

INVESTMENT OPPORTUNITIES

Strong development and permanent production growth that characterized Bosnia and Herzegovina metal sector is considerably below its real potentials and expected performances. The existing structure of the metal sector in Bosnia and Herzegovina, characterized with small companies provide huge chances for large integrator companies of the sector, to integrate existing primary producers and to start their operations.

In order to make more attractive investment climate within the particular sector it is important to make a following steps:

- Production growth with the higher added value
- Partnership with the international companies
- Technologies innovations
- Privatization and reconstruction opportunities
- Establishing of the quality certification institution (particularly important for the export oriented companies).

Domestic metal companies are already recognized as reliable partners by present foreign investors.

MINING AND METAL SECTOR PROJECTS IN BOSNIA AND HERZEGOVINA

Metal sector projects in Bosnia and Herzegovina:

- Agricultural machinery, Kozarska Dubica
- Bolts factory, Mrkonjic Grad
- CNC machines, Dobož
- Ferrosilicium Production, Gornji Vakuf - Uskoplje
- Foundry gravity of aluminium casting, Mostar
- Lattice treads, Jelah - Tesanj
- Railway equipment GIG Inženjering, Knezevo
- Seta inženjering, Zavidovici
- Tool making factory, Ugljevik
- Aluminium profiles, Zenica-Dobož Canton
- Parts and assemblies for machine tools FADIS Ljubija, Prijedor
- Production of machine tools, hydraulic press-break and shear

Military sector projects in Bosnia and Herzegovina:

- Kosmos, Banja Luka
- Orao, Bijeljina

Other metal processing projects proposed by Entities' Governments:

REPUBLIC OF SRPSKA

- Fabrika Motora Specijalne Namjene a.d. Pale

FEDERATION OF BOSNIA AND HERZEGOVINA

- Defense industry, Igman d.d., UNIS-GINEX d.d., PRETIS d.d., BINAS d.d., ZRAK d.d., BNT TMiH d.d., VITEZIT d.d.

AUTOMOTIVE INDUSTRY IN BOSNIA AND HERZEGOVINA

Auto motive industry of Bosnia and Herzegovina has a long tradition that lasts for more than one century and in a combination with the new factories established by the foreign investors and traditional home/owned companies that passed the tests of modern automotive components production; those brands are ready for New Age of the car industry.

REASONS TO INVEST

- Strategic location and geographic position
- Export oriented sector / after metal sector (export markets oriented towards CEFTA, EU and Serbia that produces FIAT vehicles)
- Closeness of the European market and borders with Croatia
- 10 000 Employees in auto component manufacturing
- Plenty of available labour with skills in particularly metal sector
- Total number of graduated engineers in Bosnia and Herzegovina is app.1000 per annum (according to the statistical agencies)

You should know that Bosnia and Herzegovina has all the parameters important for successful investment and offers you with:

- Modern technology manufactories and innovations
- Know-how knowledge
- Available production capacities (Sarajevo, Mostar, Banja Luka, Zenica, Tuzla, Bileća, Mrkonjić Grad etc.)
- Prospective auto components supply chain and access to the new markets
- Signed bilateral and multilateral trade regimes and free trade agreements
- Subventions for export oriented companies and those who employ domestic labour force
- Tax exemptions under special conditions.

Overall sector preferences are as follows:

Main activities of auto components manufacturers in Bosnia and Herzegovina

- Engines - gears and their parts
- High/quality metal precision parts and systems
- Pumps and filters
- Automotive electric parts (signals, relays, electronic switches)
- Textile and leather products
- Plastic injection parts
- Aluminium wheels and car batteries
- Small parts such as springs, screws, hoses and metal, rubber and plastic components.

FDI IN AUTOMOTIVE SECTOR

Bright sample of the fast expansion and good innovation supported through the cooperation with the great European manufacturers where some of the contractual segments were awarded to bh strongest investors such as Prevent Group, Mann Hummel, Car Trim, Jajce Alloy Wheels, Emka, Bekto etc.

Company	Foreign investor's country	Foreign investor
Car Trim d.o.o. Žepče	Germany	Car Trim GMBH
Unico Filter d.o.o. Tešanj	Germany	Mann + Hummel
Prevent	Germany	Prevent group
Jajce Alloy Wheels d.o.o. Jajce	Croatia, Germany	Miroslav Leko, Hans - Hubert Brock
Presal Exstrusion d.o.o. Široki Brijeg	Italy	PresalExstrusion
Emka d.o.o. Goražde	Germany	Emka Group
Mann Hummel d.o.o. Tešanj	Germany	Mann + Hummel
FAD d.d. Jelah	Slovenia	Prevent Group
Strolit d.o.o. Odžak	Slovenia	EM PK d.o.o. Podveza
Bekto International d.o.o. Goražde	Austria	Bekto GmbH

AUTO COMPONENTS PRODUCTION

In a group of companies involved in auto components supply at present, the majority is in metal processing - over 70% and plastics – about 15%. Certain number operates in electrics and electronics and a few in other segments of automotive supplies, such as filters, batteries, spark plugs, fuses and rubber parts. Companies in automotive sector are producers of a wide spectrum of parts and components, such as: engines and gears and their parts, high - quality metal precision parts, drive shafts, brake parts and systems, clutches, steering parts and systems, pumps, filters, automotive electric parts (signals, relays, electronic switches), textile and leather products, plastic injection parts, aluminium wheels, car batteries and various small parts such as springs, screws, hoses, and metal components, rubber or plastic.

Thermoplastic processing also follows the trend of development so some companies are already recognized exporters. BektoPrecisa Gorazde, a modern and well-equipped manufacturer of (thermo) plastic injection parts, exports over 90% of overall production, the most to the EU. Buplast Bugojno is serving other automotive suppliers in BH, like Tesla Brcko and Unico Filter Tesanj.

Very important and successful segment of auto components supply in Bosnia and Herzegovina is production and export of textile and leather seat covers and accessories to major global automotive players (Prevent, Car Trim).

HUMAN RESOURCES AND EDUCATION

Human resources with technical skills and expertise are the most favourable advantage for investing in Auto components sector in Bosnia and Herzegovina. Educated and skilled labour force is still abundantly available throughout the country particularly for the automotive and metal processing industry.

Another advantage of B&H is the high density of research and development institutes, which are the base for effective cooperation with the companies and meeting their development needs. On the other hand, a rise in the number of employees was registered in all other MP sub-segments, except for the manufacture of Other Transport Equipment, which brightens the overall labor market framework for the MP industry in 2013.

Education system and universities of mechanical and other related sciences exist and having proved successes in cooperation with the companies in metal and automotive sector in previous years. Especially the faculties of mechanical engineering co-operate closely with the local companies of the automotive supplier industry in a number of R&D-projects.

AUTOMOTIVE SECTOR PROJECTS IN BOSNIA AND HERZEGOVINA

Automotive sector projects in Bosnia and Herzegovina:

- Motor vehicles parts and accessories, Novi auto dijelovi, Rudo
- Purifiers and filters, Nova tvornica precistaca, Rogatica

- Steering mechanisms, FUSOL, Nevesinje

- SarajKomerac, Gornji Vakuf - Uskoplje

MILITARY INDUSTRY OF BOSNIA AND HERZEGOVINA

The military production industry is potentially one of the most important branches of the BH industry. Our industry products are highly esteemed throughout the world respecting international standards present in this kind of production. Currently, military production is organized in more than 30 companies and produced the wide range of armaments and military equipment including:

- Various military, industrial and initiating explosives and chemicals
- Primers, Detonators, Pyrocartridges, Igniters and fuses
- All types of ammunition and bullets for small arms, mortars, artillery, tanks, rockets and aircraft bombs
- All types of weapons (except small arms) & military equipment (mortars, artillery, tanks, tracked vehicles, general and special purpose wheel vehicles, multiple rocket launchers and aircrafts)
- Other military and protecting equipment
- Research & development, design, transfer of knowledge & know how

The defense industry is an export-oriented sector and among five industries that achieve the best results in B&H when it comes to foreign trade. This sector made a big progress in production in the last five years and recorded a significant increase in employment, and it is planned to continue to increase the scope of business. Last year, the B&H's military industry is experiencing a rebirth with the introduction of several important inventions and products. According to the Agency for Statistics of B&H, in 2017 it registered export of approximately 100 million, while in 2014 it was about 48 million €. That means that exports of arms and ammunition; parts and accessories thereof from B&H where more than doubled in the last four years (only last year it has increased by more than 10 million €).

In 2017, Bosnian military exports to Saudi Arabia amounted were worth about 23.3 million euros. Exports to Afghanistan were worth about 15.3 million euros, and to the United States, 13.4 million euros. Other major importers of Bosnian-produced arms and military equipment in 2017 were Turkey, Egypt, United Arab Emirates, Serbia, Morocco, Germany and Croatia. In total, 55 countries have military business cooperation with this small Balkan country.

KEY B&H MILITARY INDUSTRY COMPANIES

The most successful enterprises from this industrial branch are from Federation of B&H. Regarding the military industry in Republic of Srpska, it talks about three plants:

- Orao a.d. Bijeljina - www.orao.aero;
- Kosmos a.d. Banja Luka - www.kosmos.ba;
- Technical Repair Bureau Bratunac - www.trb.ba.

According to the volume of operations, export and the number of employees, companies that should be mentioned are:

- IGMAN d.d. Konjic - www.igman.co.ba;
- UNIS GINEX d.d. Goražde - www.ginex.com.ba;
- PRETIS d.d. Vogošća - www.pretis.ba;
- BNT- Mashine and hydraulics factory Novi Travnik - www.bnt-tmh.com.ba;
- POBJEDA - TEHNOLOGY d.o.o. Goražde - www.pobjeda-technology.com;
- BINAS d.d. Bugojno - www.binas.com.ba;
- VITEZIT d.o.o. Vitez;
- IGMAN d.d. Konjic - www.igman.co.ba;

- TRZ d.d. Hadžići - www.trzh.com;
- ZRAK d.d. Sarajevo - www.zrak.ba;
- FMSN - FABRIKA MOTORA SPECIJALNE NAMJENE a.d. Pale - www.fmsn.info;
- A.D. FAST Istočno Sarajevo;
- FACTORY OF SPECIAL PURPOSE ENGINES, Istočno Sarajevo;
- ČAJEVEC Banja Luka;
- ZRAK, Teslic;
- RZT Travnik;
- Pobjeda Sport d.d. Gorazde;
- Pobjeda - Rudet d.d. Gorazde;
- KOTEKS Tesanj - www.koteks.ba.

DEVELOPMENT PROGRAMS AND INVESTMENT OPPORTUNITIES

Investment opportunities in the Military Industry are multiple, such as buying a share in the industry companies, buying companies in the privatization process („Kosmos“ a.d. Banja Luka, „Orao“ a.d. Bijeljina), joint cooperation in the development of new products and joint appearance on third markets. Strategic partners are essential for the development of the military production industry. It would be of greater importance to realize foreign investments up to the legally stipulated rate of 49% or even above if it is approved by the competent body of Bosnia and Herzegovina.

Despite before mentioned potentials and experience, all military sector companies are seeking for significant modernization and upgrading of existing production programs through introduction of new technologies, new production equipment and enlargement of markets, what require substantial capital investments, which this industry cannot afford in this moment.

For this reason, military sector is interested in establishment of strategic partnership with strong foreign partners, which could enable successful and profitable implementation of modernization and development programs, through joint venture, PPP or other suitable arrangements.

Foreign investors also recognized the importance and investment opportunities of the B&H's military industry and invested money in some of the existing companies (Serbia, Turkey, USA, etc.).

MILITARY SECTOR PROJECTS IN BOSNIA AND HERZEGOVINA

Military sector projects in Bosnia and Herzegovina:

- Kosmos, Banja Luka
- Orao, Bijeljina

ICT SECTOR IN BOSNIA AND HERZEGOVINA

THE ICT SECTOR BOOM IN BOSNIA AND HERZEGOVINA

Bosnia and Herzegovina's ICT sector has started to flourish during the past few years and represents one of growth area in the economy of the country. According to the base bon.ba by the Agency TEC, the analysis of the IT sector as well as counseling and activities related to it showed that this is one of the fastest growing fields of economy in B&H with a total growth of 72 % in the past five years. Today, this sector contributes with around 75 million EUR to the total GDP. Operational revenues of companies from this field have increased by 60 % in comparison with 2010, the number of employed by nearly 97 %, and the net income has doubled, according to the analysis. The analysis included all companies of this field, 423 in total, of which 386 are small, 28 medium and 9 large business entities. The data show that, in the period from 2010 to 2014, operational incomes of companies in this field increased from 85 346 EUR to 167 821 EUR, i.e. for nearly 60%, and the number of employees increased by more than 66%, from 1 891 to 2 845. Net income of companies has more than tripled: from 7 672 to 22 325 EUR, and the majority of that income is realized through "export". Thus, in 2011 the export of these companies amounted to 16 095 EUR, which increased to 30 379 EUR in 2014. Therefore, this increase in "export" amounted to 53 %.

NEW OFFSHORE SERVICES DESTINATION

The evolution of ICT companies in Bosnia and Herzegovina has been going on at a tremendous speed lately, many of them now offering highly advanced IT and media experts, eager to prove and with a European mindset.

ICT companies from Bosnia and Herzegovina are successfully implementing different joint projects with companies abroad of all sizes in the development of particular product components, as subcontractors for product development, or as implementers of software products. B&H's ICT companies have a rich and diverse experience in providing Software Development, Outsourcing, Project Management and Consulting. They are highly educated (B.Sc. / M.Sc. in Software Engineering and Mathematics) and skilled, certified, but more importantly battle tested.

Some of offshore projects include the world's leading companies such as HERE (NAVTEQ, NOKIA), Apple Inc. Cupertino CA USA, Reactor8 Inc. Palo Alto CA USA, The Map Network Washington DC USA, Acision, Waterfall Mobile, Fides Health Care, oLyfe, Black Moose Norway, Raiffeisen Bank Austria and other companies from USA, Turkey, Norway, Sweden, UK, Netherlands etc. ICT companies from Bosnia and Herzegovina successfully implemented a set of requirements in order to establish an ISO certified quality management system within the organization.

OTHER SECTOR PROJECTS IN BOSNIA AND HERZEGOVINA

Other sectors projects in Bosnia and Herzegovina:

- Architectural stone, Mostar
- Clay exploitation, Berkovici
- Florapharm, Lopare
- Stone wool, Mrkonjic Grad
- Kaoline and feldspat, Srbac
- Mostar quarry, Mostar
- Finishing materials in civil engineering works, Prnjavor
- Production capacity for collecting and processing of used tires
- Cement factory, Gacko
- High-density polyethylene plastic containers, Petrovo
- Geothermal heating system, Bijeljina
- Technical rubber goods FAGUM NOVI, Zvornik
- Production of mineral- stone wool and technical building stone, Kostajnica
- The Underground Garages Marijin Dvor, Sarajevo
- The Underground Public Garage G1&G2 Ciglane, Sarajevo
- Skenderija Public Garage, Sarajevo
- Cosmetics, dietary supplements and medicines, Bijeljina

Other sectors projects proposed by Entities' Governments:

REPUBLIC OF SRPSKA

- Exploitation of raw materials and construction of a cement factory in Prijedor
- Development and Reconstruction of Facilities of Mljecanica Hospital for Physical Medicine, Rehabilitation and Balneoclimatology, Kozarska Dubica
- Secondary Waste Separation Plant at Regional Landfill, Banja Luka
- Reconstruction and Energy Efficiency Improvement in Public Lighting System of Sokolac Municipality
- Installation of Solar Panels on Public Institution Buildings, Teslic
- Procurement of Generators for Landfill Gas Use for Energy, Banja Luka

FEDERATION OF BOSNIA AND HERZEGOVINA

- Cement Factory Banovići
- Projects for increase of energy efficiency in the Cantons Sarajevo, Central-Bosnia, Tuzla, Una-Sana, Zenica-Doboj, Bosnia-Drina
- Building of regional waste-dumps in 8 cities (Mostar, Livno, Gornji Vakuf, Živinice, Bihać, Neum, Orašje, Bosanska Krupa)
- Waste water treatment and sewage in 19 municipalities (Mostar, Živinice, Odžak, Trnovo, Bihać, Konjic, Ljubuški, Široki Brijeg, Doboj jug, Tomislavgrad, Livno, Tešanj, Lukavac, Orašje, Gradačac, Neum, Bosanska Krupa, Bosanski Petrovac, Gračanica)

REAL ESTATE PROJECTS IN BOSNIA AND HERZEGOVINA:

- Balkan Distribution Center, Sarajevo
- Senior Accommodation, Busovaca
- Trading Centre, VMC Mall, Sarajevo
- Traffic Business Centre, Sarajevo
- Young Entrepreneurship Centre RRC Juzni logor, Mostar
- Residential and business centre EUREKA, Banja Luka
- Construction of Sarajevo Big Box
- Residential Business Complex "Neretva" Mostar
- Residential Complex Sehic Garden, Sarajevo
- Kosevo-Jagomir Retirement Home, Sarajevo

Other real estate projects in Federation of Bosnia and Herzegovina:

- Mostar Sjeverni Logor - Northern Barracks

TEXTILE SECTOR PROJECTS IN BOSNIA AND HERZEGOVINA:

- Bellissima Ltd Sarajevo
- Cloth diapers Banja Luka
- Rock N Folk Fashion Line Sarajevo
- Expanding production capacity and purchase of equipment, Bugojno

Other textile sector projects in Republic of Srpska:

- Novi Elastik a.d. Vlasenica

INNOVATION SECTOR PROJECTS IN B&H:

- Accessory machine for monophase complex agro technology
- Hydroelectric power station with hair turbine in running waters
- Progressive load regulation mechanism at exercise machines
- Seawater distillation apparatus combination with renewable energy
- System for flood prevention 2
- Termic radiant windscreen wiper (heater)
- Traffic sign of black spot
- Vacuumized PVC brick
- Straight A life
- Women's shoes with replaceable heels
- Hovering movable and immovable objects
- Device for ball airbags on vehicles
- Malfunction of electrical and electromechanical parts on vehicles
- New configuration for usage of solar cells
- The highly secure electrical-mechanical lock
- Hydrogen pelet-ekoterm as alternative fuel
- Vibrer Tire, Mostar
- Tesla's three-phase hybrid internal combustion engine
- Biometric Self-service Hotel Reception

INVESTMENT LOCATIONS IN BOSNIA AND HERZEGOVINA

BUSINESS ZONES:

- Industrial zone Stari Ilijas
- 25 Novembar, Brod
- Podbrdo, Mrkonjić Grad
- Business zone Banja Luka
- Aleksandrovac, Laktasi
- Agro industrial zone Nova Topola, Gradiska
